The Churchville Lions Club would like to thank you for being a part of this walk. The proceeds of this walk will go to The Gilda's Club and Pluta Cancer Center.

The Gilda's Club provides a meeting place for men, women and children living with cancer, along with their family and friends. They join with others to build social and emotional support as a supplement to medical care.

Free of charge and non-profit, Gilda's Club offers support and networking groups, lectures, workshops and social events in a non-residential, homelike setting. Gilda's Club is funded through the generosity of private individuals, corporations, foundations, and grants.

The Pluta Cancer Center is NY State's first independent, not for profit, cancer treatment facility. They combine outstanding physicians, the latest therapies and equipment and a treatment philosophy that addresses the needs of people in the context of their environment and their families, not just the disease. They believe that making patients feel heard, comfortable and encouraged is crucial to maximizing the effectiveness of treatment.
